HAWKES & SON'S

SIMPLICITY TUTORS

FOR

MANDOLIN AND GUITAR

The most interesting and studious tutors for beginners ever printed, 32 pages each, replete with scales, exercises, and solos. Scale diagram in each tutor.

Price, 50 Cents, Each.

THE title of this series of instruction books indicates the intention of the publishers, and the scope of the work. Though simplicity is the keynote throughout, it cannot be said that thoroughness is sacrificed.

The author takes for granted that the pupil is absolutely a beginner on the instrument he is intending to learn, and further presupposes entire ignorance of music. For this reason, the tutors are most excellent for the purpose for which they are intended viz; A Primer for Mandolinists and Guitarists.

The general idea in each tutor is to present the first principles of music, commencing at the most elementary stage of notation, and ending with the characteristics of ornamentation; such as, graces, turns, shakes, meanings of words and signs, etc.

Then comes the practical part. The pupil is first told of the characteristics and compass of the instrument, and is then furnished with a reference table, showing the various notes, the value of the same, together with a table of scales, and graduated exercises, and the whole concludes with a comprehensive collection of melodies specially selected with the idea that the ear will assist the eye, and be a check to the pupil in self-tuition.

In conclusion, the instructions are most concise, the printing very clear, the paper, in it's get-up, excellent, and the price (50 cts. for each book,) reasonable.
